ABOUT PHOTOSENSITIVE SEIZURES

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting further from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

OTHER IMPORTANT HEALTH AND SAFETY INFORMATION

The Xbox video game system documentation contains important safety and health information that you should read and understand before using this software.

AVOID DAMAGE TO YOUR TELEVISION

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be safely played on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

COMPLETE CONTROLS

It's easy to jump into *MVP Baseball 2004* and play like a pro. Here's all you need to know to start your Major League Baseball™ career.

❖ To really master your skills on the diamond, check out the in-game tutorial (via the Main menu).

OFFENSE

With the new EA SPORTS™ Pure Swing System, you have more control to slap a single the other way, drill an extra-base hit down the line, or blast a hanging curve into the bleachers.

BATTING

Swing	A
Square to Bunt	Click and hold R (release to pull back)

❖ The strike zone is divided into nine colored squares. Red squares mark the batter's hot zones. Blue squares are the batter's cold zones. Clear squares are neutral for the batter.

EA SPORTS™ PURE SWING SYSTEM

Take unprecedented control at the plate by moving **L** during your swing.

❖ The results of your swing depend on your timing, the location of the pitch, and the direction you move **L**.

❖ For the best results, move **L** towards the location of the pitch.

➡ **To hit the ball in the air**, move **L** **⬆**/**⬇**/**⬅** while swinging. This increases the chances of hitting a fly ball, but also increases your chances of missing the ball if the pitch isn't up in the zone.

➡ **To hit the ball on the ground**, move **L** **⬆**/**⬇**/**⬅** while swinging. Keep in mind that high pitches are very difficult to hit on the ground.

➡ **To hit the ball to the left**, move **L** **⬆**/**⬅**/**⬇** while swinging. For the best results, use this when the pitch is coming in on the left side of the plate.

➡ **To hit the ball to the right**, move **L** **⬆**/**⬇**/**➡** while swinging. For the best results, use this when the pitch is coming in on the right side of the plate.

BASERUNNING

Control runner at 1st/2nd/3rd	B / Y / X
Steal/Choose base destination	<ul style="list-style-type: none"> ⬆ (press towards base you are trying to steal) ⬅ (stops selected runner) ⬇ (stops all runners)
Slide	R (> EA SPORTS™ Big Play Control on p. 8)
Retreat runner	⬆ (press towards base you want to return to)
Advance/retreat all runners	L / R
Increase/decrease leadoff	<ul style="list-style-type: none"> R ⬆ (increase all leadoffs); R ⬇ (decrease all leadoffs); R ⬅ (increase lead of highlighted runner); R ➡ (decrease lead of highlighted runner)

NOTE: If you do not select a runner, your baserunning command defaults to the lead baserunner.

➡ To steal, press **B**, **Y**, or **X** to select your runner, then press ⬆ to select the base to steal.

DEFENSE

PITCHING

Choose pitch location	L
Throw a pitch	A , B , Y , X , or ⬇
Pickoff attempt	L + B , Y , or X
Pitchout	L + A
Intentionally hit the batter	L + ⬆ (click)
Choose infield/outfield alignment (before pitch)	R + ⬆
View pitch history to toggle at bats	⬆ (click and hold) + L (pull) or R (pull)
View Bullpen/Dugout menu	⬆ (press and hold) + ⬆⬆ (⬆➡ to toggle between bullpens and dugouts)

PITCH METER

TO THROW A PITCH:

1. Press and hold the button that corresponds to the pitch you want to throw. The bar inside the pitch meter begins moving.
 2. Release the pitch button when the bar reaches the end of the pitch meter. The closer your release point is to the end of the meter, the more effective the pitch is.
 3. Press the pitch button again when the bar is within the green accuracy zone near the beginning of the pitch cycle to determine the pitch's accuracy.
- ❖ The effect of a bad pitch depends on the type of pitch. For example, ineffective fastballs are slower than normal, and less effective breaking pitches are flatter.
 - ❖ If a pitcher misses the green accuracy zone by a considerable amount, an indicator (red for hot zone, blue for cold zone, yellow for ball, white for neutral) appears to tip off the batter to the location of the pitch.

PITCH SELECTION

Your pitcher's pitch selection appears on-screen. Not all pitchers have the same arsenal of pitches. A pitcher's four-seam fastball is always assigned to **A**. The remaining pitches are assigned to **B**, **Y**, **X**, and ⬇ (though not all pitchers have five pitches).

FIELDING

Your first of many Gold Gloves awaits.

Move fielder	L
Change fielders	L
EA SPORTS™ Big Play Control (> p. 8)	R
Throw to home, 1st, 2nd, and 3rd	A , B , Y , and X (press and hold to power up, release to throw)
Throw to the cut-off man	R (pull and hold)

- ❖ If you power up the throw into the red zone, you throw harder, but less accurately, which could result in an error.
- ❖ If you select to throw to either a base or the cut-off man before the ball arrives, the fielder begins his throw immediately upon receiving the ball.

NOTE: The CPU automatically adjusts your defensive alignment based on the situation. However, you can override this by choosing the infield and outfield alignments yourself.

EA SPORTS™ BIG PLAY CONTROL

Using the all-new EA SPORTS™ Big Play Control, you can climb the fence to rob home runs, make spectacular diving catches, slide around tags, and more.

FIELDING

- To dive or stretch for a ball just out of your reach, move **R** toward the ball.
- To climb the wall to snag a would-be home run or jump for a ball over your head, move **R** .
- To make a sliding catch, move **R** as the ball approaches.

BASERUNNING

Timing is the key to a perfect slide. Use EA SPORTS™ Big Play Control to create havoc on the base paths.

Head-first slide	R
Head-first slide to the left/right side of the bag	R
Pop-up slide	R
Hook slide to the right/left side of the bag	R
Dislodge ball from catcher	R

PLAY NOW

Pick your teams and get on the field. In Play Now mode, it's that simple.

TO START A PLAY NOW GAME:

1. Select PLAY NOW from the Main menu. The Select Team screen appears.

SELECT TEAM SCREEN

2. From the Select Team screen, move the controller icon beneath the team (Home or Away) you want to play as.
- ❖ The Select Team screen shows rankings for pitching (baseball icon), batting (bat icon), fielding (glove icon), and speed (shoe icon).
3. Select the teams, choose jerseys, and then select your difficulty setting. That's it. It's game time.

ON THE DIAMOND

OTHER GAME MODES

MVP Baseball 2004 gives you enough game modes to keep you busy all the way from the offseason to the World Series.

EXHIBITION

Set up a one-time game with the rules you want. Every detail is up to you—you're in charge.

NOTE: Set up a game in Exhibition mode like you would a Play Now game. However, Exhibition mode gives you a bit more control over rosters and options.

DYNASTY MODE™

General manager, player, or manager—with Dynasty Mode, you get to be them all. From setting the day-to-day lineup to signing free agents, you control every aspect of your team—from the Major League Baseball™ team all the way through the AAA and AA squads.

DYNASTY MANAGEMENT

The Dynasty Management screen is your hub to build your team into a contender. After you select a team and set your options, Season 1 begins.

DYNASTY MANAGEMENT SCREEN

Read messages from players, staff, and media

➤ Team Management on p. 12

Check out your upcoming games

Keep up on standings, statistics, and league news

Review your team goals

➤ Saving and Loading on p. 16

Advance to next day on the schedule

Change the display between: today's opponents, your next three games, team budget, and division standings

TEAM MANAGEMENT

Conduct trades and tinker with the lineup to bring together and maintain a quality squad.

TRANSACTIONS

Trade players and sign free agents.

ROSTERS

Adjust your team roster, see who's on the disabled list, create a player, and more.

PAYROLL

Review your current players' contracts. Exclamation marks appear next to players who are in the final year of their contract.

- ❖ Your Budget, payroll, and points in the bank are at the bottom of the screen. Decrease payroll and add points to the bank by releasing players. You are penalized if you release a player who is still under contract.

TO OFFER A PLAYER A NEW CONTRACT:

1. Select a player from the Payroll screen. The Player Contract screen appears.
 2. View the terms that the player is asking, then adjust the Points and Term as you see fit.
 3. Select Make Offer or Release Player. If you make an offer, the player either rejects or accepts your offer.
- ❖ If your offer is rejected, you may make another one, as long as the player has not refused to negotiate with you.

NOTE: Every time you achieve a goal, you increase your manager rating, which gives you the opportunity to receive a contract extension with your current team if they are happy with your performance. You can also receive contract offers with other teams down the road.

OFF-SEASON

The off-season is your chance to improve your roster by resigning your players, courting free agents, and drafting new talent.

- ❖ Spring training marks the end of the off-season. Use this opportunity to try out your new players and set your opening day lineup.

HOME RUN SHOWDOWN

Bust out the serious lumber and aim for the bleachers. The first player to reach the target distance wins.

- To start a Home Run Showdown, set up the game like you would for an Exhibition game (➤ p. 11), choose the target distance for the showdown, and then start swinging.
- ❖ Fair balls add distance to your total in feet—foul balls subtract from your total. Home runs give you a 100-foot bonus, while strikes subtract 100 feet. Money Balls double the score of any fair ball.

PITCHER SHOWDOWN

It's all about racking up the Ks in the all-new Pitcher Showdown. The first pitcher to reach the point level wins.

- To start a Pitcher Showdown, set up the game like you would for an Exhibition game (➤ p. 11), choose a point total for the match-up, and get ready to bring the heat.
- ❖ You attempt to record 3, 6, or 9 strikeouts—you receive +1 for each strikeout, -1 for each HR allowed, and -1 for each walk.

MANAGER MODE

Sometimes you want to just sit back and manage the action. Manager Mode puts the strategy of the game completely in your hands, while leaving the on-the-field execution to the players.

- To start a Manager Mode, choose your gameplay options, then proceed like you would for an Exhibition game (➤ p. 11).

NOTE: Manager Mode is a one-player only mode.

MANAGER MODE SCREEN

SCENARIO EDITOR

Two outs, bottom of the ninth, bases loaded—instantly throw yourself into any game situation.

- To play a certain situation, pick all the details of the match-up, and then proceed like you would in Exhibition mode (➤ p. 11).

MVP TIPS

MVP Baseball 2004 is a deep game, and though it's easy to pick up and play, it takes a lot of practice before you can excel at the All-Star level. MVP Tips teach you everything from the fundamentals to the more advanced features of the game.

- ❖ The tutorial videos cover various aspects of pitching, batting, and fielding.

SAVING AND LOADING

NOTE: Never turn off your Xbox console when loading or saving files.

You can save or load Options, Rosters, User Profiles, and Dynasty Mode seasons.

- ❖ A saved Options file and the last User Profile load automatically at boot-up.

TO SAVE A GAME OR CONFIGURATION:

1. At the Save screen, select a location to save a new file or overwrite an existing one. A pop-up tells you if you have enough free blocks on the hard disk or memory unit (MU) to save the file type. Press **A** to proceed.
